<sup>(1)</sup> The code number is introduced by this Annex and is intended to set a classification under this and other related Annexes of Regulation (EC) No 396/2005.

<sup>(2)</sup> The scientific name of the items listed in the column "Examples of individual products within the groups to which the MRLs apply", where possible and relevant, is mentioned. As much as possible the International System of Nomenclature is followed.

<sup>(3)</sup> The word "others" covers anything not explicitly mentioned under the rest of the codes within "Groups to which the MRLs apply".

<sup>(4)</sup> MRLs in Annex II and III for the product apply only for the product when used for human consumption. For parts of the product used exclusively as ingredients for animal feed, separate MRLs will be applicable.

<sup>(5)</sup> Where the pesticide and/or metabolites (included in the residue definition) is/are water soluble ( $\log P_{ow}$  less than 3) the MRL is expressed as mg/kg of meat (including fat), preparations of meat, offal and animal fats. Where the pesticide and/or metabolite (included in the residue definition) is/are fat soluble ( $\log P_{ow}$  greater than or equal to 3) the MRL is expressed as mg/kg of fat contained in the meat, preparations of meat, offal and animal fats. In the case of foodstuffs with a fat content of 10 % or less by weight, the residue is related to the total weight of the boned foodstuff. In such cases, the maximum level is one-tenth of the value related to fat content, but must be no less than 0,01 mg/kg. The latter does not apply for cow's milk and whole cream cow's milk. It applies neither for the other products when the MRL is set at the LOD.

<sup>(6)</sup> Where the pesticide and/or metabolites (included in the residue definition) is/are water soluble ( $\log P_{ow}$  less than 3) the MRL is expressed as mg/kg of milk and milk products. Where the pesticide and/or metabolite (included in the residue definition) is/are fat soluble ( $\log P_{ow}$  greater than or equal to 3) the MRL is expressed as mg/kg of cow's milk and whole cream cow's milk. In determining the residues in raw cow's milk and whole cream cow's milk, a fat content of 4 % by weight should be taken as a basis. For raw milk and whole cream milk of another animal origin the residues are expressed on the basis of the fat. For the other foodstuffs listed with a fat content of less than 2 % by weight, the maximum level is taken as half that set for raw milk and whole cream milk, with a fat content of 2 % or more by weight, the maximum level is expressed in mg/kg of fat. In such cases, the maximum level is 25 times that set for raw milk and whole cream milk. The latter does not apply when the MRL is set at the LOD.

<sup>(7)</sup> Where the pesticide and/or metabolites (included in the residue definition) is/are water soluble ( $\log P_{ow}$  less than 3) the MRL is expressed as mg/kg of shelled fresh eggs, for bird's eggs and egg yolks; Where the pesticide/or metabolite (included in the residue definition) is/are fat soluble ( $\log P_{ow}$  greater than or equal to 3) the MRL is also expressed as mg/kg of shelled fresh eggs, for bird's eggs and egg yolks. However, for eggs and egg products with a fat content higher than 10 %, the maximum level is expressed in mg/kg fat. In this case, the maximum level is 10 times higher than the maximum level for fresh eggs. The latter does not apply when the MRL is set at the LOD.

<sup>(8)</sup> MRLs not applicable until the individual products are identified and listed.'

**COMMISSION REGULATION (EC) No 179/2006****of 1 February 2006****introducing a system of import licences for apples imported from third countries**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS REGULATION:

Having regard to the Treaty establishing the European Community,

*Article 1*

1. The release into free circulation of apples falling within CN code 0808 10 80 shall be subject to the presentation of an import licence.

Having regard to Council Regulation (EC) No 2200/96 of 28 October 1996 on the common organisation of the market in fruit and vegetables <sup>(1)</sup>, and in particular Article 31(2) thereof,

2. Regulation (EC) No 1291/2000 shall apply to import licences issued under this Regulation.

Whereas:

*Article 2*

(1) Apple producers in the Community have recently found themselves in a difficult situation, due, among other things, to a significant increase in imports of apples from certain third countries of the Southern hemisphere.

1. Importers may submit import licence applications to the competent authorities of any Member State.

(2) The monitoring of the import of apples should therefore be improved. The appropriate instrument for achieving that objective is a mechanism based on issuing import licences subject to the provision of a security to ensure that the operations for which an import licence has been applied for are actually performed.

They shall enter the country of origin in box 8 of licence applications and mark the word 'yes' with a cross.

(3) Commission Regulations (EC) No 1291/2000 of 9 June 2000 laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products <sup>(2)</sup> and (EEC) No 2220/85 of 22 July 1985 laying down common detailed rules for the application of the system of securities for agricultural products <sup>(3)</sup> should apply.

2. Importers shall lodge with their application a security in accordance with Title III of Regulation (EEC) No 2220/85 guaranteeing compliance with the commitment to import during the term of validity of the import licence. The security shall be EUR 15 per tonne.

Except in cases of *force majeure*, the security shall be forfeited in whole or in part if the import is not carried out, or is carried out only partially, within the period of validity of the import licence.

(4) The Management Committee for fresh Fruit and Vegetables has not delivered an opinion within the time-limit set by its chairman,

*Article 3*

1. Import licences shall be issued without delay to any applicant, irrespective of their place of establishment in the Community.

The country of origin shall be entered in box 8 of the import licence and the word 'yes' shall be marked with a cross.

**COMMISSION REGULATION (EC) No 180/2006****of 1 February 2006****setting delivery obligations for cane sugar to be imported under the ACP Protocol and the Agreement with India for the 2005/06 delivery period and derogating from Regulation (EC) No 1159/2003**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1260/2001 of 19 June 2001 on the common organisation of the markets in the sugar sector <sup>(1)</sup>, and in particular Article 39(6) thereof,

Having regard to Commission Regulation (EC) No 1159/2003 of 30 June 2003 laying down detailed rules of application for the 2003/04, 2004/05 and 2005/06 marketing years for the import of cane sugar under certain tariff quotas and preferential agreements and amending Regulations (EC) No 1464/95 and (EC) No 779/96 <sup>(2)</sup>, and in particular Article 9(1) thereof,

Whereas:

(1) Article 9 of Regulation (EC) No 1159/2003 lays down detailed rules for setting delivery obligations at zero duty for products falling within CN code 1701, expressed in white-sugar equivalent, for imports originating in the countries that are signatories to the ACP Protocol and to the Agreement with India.

(2) Application of Articles 3 and 7 of the ACP Protocol, Articles 3 and 7 of the Agreement with India and Article 9(3) and Articles 11 and 12 of Regulation (EC) No 1159/2003 has resulted in the Commission setting delivery obligations for each exporting country for the 2005/06 delivery period, on the basis of the information currently available.

(3) Article 12(2) of Regulation (EC) No 1159/2003 provides that paragraph 1 of that Article does not apply where the difference between the quantity of delivery obligations and the total quantity of ACP-India preferential sugar counted is 5 % or less than the delivery obligations. In the case of Côte d'Ivoire, India and Madagascar, the quan-

ties delivered are 6,7 %, 7,6 % and 6,7 % respectively below the delivery obligations. Given that the quantities concerned are minimal and the impact on the Community sugar market and the supply of raw sugar to Community refineries for that delivery period was negligible, Article 12(1) of Regulation (EC) No 1159/2003 should not be applied to India, Côte d'Ivoire or Madagascar and the quantities not delivered should be added to the delivery obligations for those countries for the 2005/06 delivery period, in accordance with Article 12(4) of that Regulation.

(4) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Sugar,

HAS ADOPTED THIS REGULATION:

*Article 1*

Article 12(2) of Regulation (EC) No 1159/2003 notwithstanding, paragraph 1 of that Article shall not apply as regards the quantities registered as not delivered for the 2004/05 delivery period in the case of Côte d'Ivoire, India and Madagascar.

The quantities not delivered referred to in paragraph 1 shall be added to the delivery obligations referred to in Article 2.

*Article 2*

The delivery obligations for imports originating in the countries that are signatories to the ACP Protocol and to the Agreement with India in respect of products falling within CN code 1701, expressed in white-sugar equivalent, in the 2005/06 delivery period for each exporting country concerned, shall be as set out in the Annex.

*Article 3*

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Union*.

<sup>(1)</sup> OJ L 178, 30.6.2001, p. 1. Regulation as last amended by Commission Regulation (EC) No 39/2004 (OJ L 6, 10.1.2004, p. 16).

**COMMISSION REGULATION (EC) No 181/2006****of 1 February 2006****implementing Regulation (EC) No 1774/2002 as regards organic fertilisers and soil improvers other than manure and amending that Regulation****(Text with EEA relevance)**

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 1774/2002 of the European Parliament and of the Council of 3 October 2002 laying down health rules concerning animal by-products not intended for human consumption <sup>(1)</sup>, and in particular Articles 20(2), 22(2) and 32(2) thereof,

Whereas:

(1) Regulation (EC) No 1774/2002 prohibits the application to pasture land of organic fertilisers and soil improvers other than manure. This prohibition is in line with the current EU feed ban, and is intended to prevent possible contamination risks from pasture land where Category 2 material and Category 3 material could be present. Such risks may be due to direct grazing or use of grass as silage or hay by farmed animals. That Regulation provides that measures for implementing the prohibition, including control measures, are to be adopted after consultation of the appropriate scientific committee.

(2) Various scientific committees have issued a number of scientific opinions that are relevant to the application to land of organic fertilisers and soil improvers. These include first, the opinion of 24 and 25 September 1998 of the Scientific Steering Committee on the safety of organic fertilisers derived from mammalian animals, second, the opinion of 24 April 2001 of the Scientific Committee on Toxicity, Ecotoxicity and the Environment on the evaluation of sludge treatments for pathogen reduction, third, the opinion of 10 and 11 May 2001 of the Scientific Steering Committee on the safety of organic fertilisers derived from ruminant materials and fourth, the opinion of 3 March 2004 of the Scientific Panel on Biological Hazards of the European Food Standards Authority on the safety vis-à-vis biological risk including TSEs of the application on pastureland of organic fertilisers and soil improvers.

(3) Those scientific opinions recommend that animal tissues that are likely to contain TSE agents should not be incorporated in organic fertilisers and soil improvers for use on land to which cattle may have access. Other materials may be used in the manufacture of organic fertilisers and soil improvers under certain health conditions involving heating and safe sourcing that further reduce any potential risks.

(4) In the light of those scientific opinions, implementing rules, including control measures, should be laid down for the application to land of organic fertilisers and soil improvers, as well as digestion residues and compost.

(5) The implementing measures provided for in this Regulation should be without prejudice to transitional measures currently applicable pursuant to Regulation (EC) No 1774/2002.

(6) It should be possible to place on the market and export organic fertilisers and soil improvers provided the conditions set out in this Regulation are complied with.

(7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

*Article 1***Subject matter and scope**

1. This Regulation shall be without prejudice to transitional measures adopted in accordance with Regulation (EC) No 1774/2002.

2. The Member States may apply stricter national rules than those provided for in this Regulation as regards the way organic fertilisers and soil improvers are used on their territory where such rules are justified on animal or public health grounds.

<sup>(1)</sup> OJ L 273, 10.10.2002, p. 1. Regulation as last amended by Regulation (EC) No 416/2005 (OJ L 66, 12.3.2005, p. 10).

*Article 2***Amendment**

In Annex I to Regulation (EC) No 1774/2002, point 39 is replaced by the following:

## COUNCIL DECISION

of 23 January 2006

amending Decision 90/424/EEC on expenditure in the veterinary field

(2006/53/EC)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 37 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament <sup>(1)</sup>,

Having regard to the opinion of the European Economic and Social Committee <sup>(2)</sup>,

Whereas:

(1) Avian influenza, previously called 'avian plague', is a very severe infection of birds that causes a very serious risk for animal health. The influenza virus of avian origin may, in certain conditions, also pose a risk for human health.

(2) Council Decision 90/424/EEC of 26 June 1990 on expenditure in the veterinary field <sup>(3)</sup> provides for the possibility of a financial contribution from the Community to the Member States for the eradication of certain animal diseases. This Decision envisages the possibility of granting such contribution for the eradication of avian influenza caused by the so-called 'highly pathogenic' strains of virus.

(3) During recent avian influenza epidemics, outbreaks of disease caused by low pathogenic avian influenza viruses subsequently mutated into highly pathogenic viruses causing devastating consequences and risks for public health. Once mutation has occurred, the virus is extremely difficult to control. Council Directive 2005/94/EC of 20 December 2005 on Community measures for the control of avian influenza <sup>(4)</sup>, establishes compulsory surveillance and control measures also in relation with the low pathogenic viruses, so that outbreaks of highly pathogenic avian influenza may be prevented.

(4) In the light of the adoption of Directive 2005/94/EC it is appropriate to modify Decision 90/424/EEC so that Community financial assistance may also be granted for those eradication measures carried out by the Member States to combat avian influenza virus strains of low pathogenicity that may mutate into highly pathogenic strains,

HAS ADOPTED THIS DECISION:

*Article 1*

Decision 90/424/EEC is hereby amended as follows:

1. Article 3 shall be amended as follows:

(a) in paragraph 1, the sixth indent shall be deleted;

— the slaughter of animals of susceptible species which are affected or contaminated or suspected of being affected or contaminated, and their destruction;'

<sup>(1)</sup> Opinion delivered on 1 December 2005 (not yet published in the Official Journal).

<sup>(2)</sup> Opinion delivered on 28 September 2005 (not yet published in the Official Journal).

<sup>(3)</sup> OJ L 224, 18.8.1990, p. 19. Decision as last amended by Directive 2003/99/EC of the European Parliament and of the Council (OJ L 325, 12.12.2003, p. 31).

<sup>(4)</sup> OJ L 10, 14.1.2006, p. 16.

(c) paragraph 4 shall be replaced by the following:

‘4. If, in view of the development of the situation in the Community, it proves necessary to continue the measures provided for in paragraph 2 and Article 3a, a new decision concerning the financial contribution by the Community, which might exceed the figure of 50 % laid down in the first indent of paragraph 5, may be adopted in accordance with the procedure laid down in Article 41. When this decision is adopted, any measures which the Member State concerned must take in order to ensure the success of the action may be laid down, and in particular measures other than those mentioned in paragraph 2.’;

1. This Article and Article 3(3) and (4) shall apply in the event of the occurrence of avian influenza in the territory of a Member State.

3. The financial contribution by the Community, divided if necessary into several tranches, shall be:

- 50 % of the costs incurred by the Member State in compensating livestock owners for the killing of poultry or other captive birds;
- 50 % of the costs incurred by the Member State for, the destruction of animals, the destruction of animal products, the cleaning and disinfection of holdings and equipment, the destruction of the contaminated feeding-stuffs and for the destruction of contaminated equipment, where such equipment cannot be disinfected;
